Add the finishing touch with Phantom Screens

When creating your perfect home, there's one key thing that can really bring your interior to life – fresh air. Phantom's premium retractable screens allow you to open up your windows and doors to let fresh air in while protecting against insects, UV rays, and garden detritus. This means you can create an idyllic, indoor-outdoor space that combines the sights, sounds, and smells of the outdoors with all the comforts of indoors.

[Screens for Doors and Windows](#)

Phantom Screens suit a wide variety of applications. Our window screens are great for bedrooms to let fresh air in on hot summer nights or for kitchens to keep your food preparation areas cool but hygienic.

Our door screens are perfect for patios as they can be retracted quickly and smoothly to allow easy access to your outside space. We also offer larger screens for wider openings like bifold doors, so you can really open your home to the outdoors. And for that extra touch of luxury, our powered screens can be used to cover large openings at the touch of a button.

[Indoor-Outdoor Spaces](#)

As the trend for combining outdoor and indoor spaces has grown, homeowners have become more and more creative in the ways they are using our screens. For example, many are choosing to use our powered screens to dress patios and verandas, essentially creating an extra room in the garden which allows them to enjoy the outdoors whilst being protected from insects, UV rays, and glare. Some of our customers have chosen to use screens to retain warmth from patio heaters, allowing them to utilise their outdoor space even during the cooler months.

[Minimalist Design](#)

Phantom Screens super-fine mesh means the screens are practically invisible when in use, creating a seamless transition from indoors to out. When you're finished with them, the screens retract into the discreet housing, so they're completely out of sight. The screens frames can even be colour-matched to complement your existing décor, further improving design cohesion.

To add the perfect finishing touch to your project please visit www.phantom-screens.co.uk to find your nearest distributor.
